

Bank Reconciliation

***Intrust Win* Bank Reconciliation application helps you streamline and improve the reconciliation of bank statements with general ledger bank accounts. It makes important updates to Intrust Win General Ledger and receives timely entries from the other applications.**

With Bank Reconciliation, you'll know which checks have cleared, which transactions are outstanding, which bank accounts contain what amounts, and exactly where your money is. Find errors and record differences between your books and the bank easily with two types of reconciliation from the Reconciliation Report—book-to-bank and bank-to-book. Reconciling is fast and simple. You can clear transactions with a single mouse click—line by line by a specific range of checks or all at once. If you make a mistake, reversing a selection is just as easy.

You need to make the best decisions about the day-to-day operations of your business. ***Intrust Win*** Bank Reconciliation gives you the accurate information you need to make the most of your cash. Using multiple bank accounts for Accounts Receivable/Sales Order deposits and Accounts Payable/Purchase Order checks gives you the flexibility to receive money and to disburse money from different accounts.

Additional Bank Reconciliation Features:

- Unlimited number of bank accounts with the Bank Accounts screen
- Account balance automatically displayed from the general ledger account if Bank Reconciliation is interfaced with General Ledger
- Last statement balance and statement date updated when reconciled
- Enter recurring adjustments only once
- Enter a transaction in any currency if the multicurrency option is on
- Void a check before it is sent or stop the payment of a check before it is cashed
- Void any check after it has been posted
- Define your own default descriptions and references
- Inter-account transfers and manual adjustments
- Post transactions to multiple years
- Reprint the last posting log
- Stop the payment of any check, even if it was posted from an interfaced application
- Purge a cleared transaction by bank account ID and by transaction date
- Review total debits and credits posted to GL for each period in the Post Transactions Log
- Ability to view account number, description, contact information, and statement through the Bank Accounts List

- Print journal to check for errors and omissions
- Maintain an accurate audit trail
- Reports that list the cleared transactions, outstanding transactions, and bank-to-book and book- to-bank reconciliation information
